

# FAQ 31

## To Prepare Or Not To Prepare? - A Good Question

### Q #31 What can I do if your Web information is no longer available?

IF it goes away and you don't have the material, we would bring this counsel: **READ** the **BOOK**, and our book (*The Final Trumpet Rapture Gathering: An Introduction*) if you'd like crucial insight in regards to navigating through the unfriendly waters ahead.

But please don't wait until that moment should it indeed take place. You can and should do something **now** ...

There may come a time when some **WEB** information is no longer available. Since we have so many ways to store information, we suggest down-loading our materials (on a **UBS Mass Storage Device; Removable Disk; etc.**) **NOW** as opposed to waiting until a time when the Internet may no longer be accessible. After that time, if this occurs, it will be too late to retrieve our information. One hour invested today (down-loading the material) is more than worthwhile. Note: **EM** will not be sending hard copies of this information once our web information disappears so **please**, make the commitment to have this helpful (to **YOU**) material.

A concern, if we may: Endurance Ministries seeks to help better prepare the Church for the days **prior to** the initial appearing of Christ.\* We do this because the **Word** speaks to **readiness**. Toward that end, in addition to transferring the important information (posted on our many web sites) onto a disk, look over our materials with a view of immediate application. Why? If people wait until they see some of these later signs, some preparations will no longer be an option due to the lateness of the hour. It frequently amazes us when the church shows such little regard for biblical counsel in a day when we need it most. The Parable of the Ten Virgins provides **HUGE** Counsel for today. Remember, while all ten were waiting for the **Bridegroom**, **only five made it into the wedding gathering**. The other five, due to ill-preparedness, did not. This is not an insignificant matter.

\* We also provide helpful counsel concerning the period of the Trumpet blasts which follows His initial appearing. These events are mentioned in the **Book of Revelation**. Because we believe the Church will still be present on the earth following the sign of the Son of Man (Matthew 24:30; Revelation 6:14-17), this brief moment in the human experience is important—even to the Church. While these things will unfold, it's also crucial we discern eternally significant events are taking place **TODAY** to which we need to be responding. This is a part of *readiness* to which our Lord has so called His people.
