

# FAQ 40

## God's Prophetic Word Is Amazing !

**Q #40** In your materials you claim II Timothy 4:3-4 is taking place today. How so?

In a couple spots on our many web sites we claim the Theory of Evolution is one fulfillment of this prophecy. (Please understand, we are talking about the big-picture Neo-Darwinian myth (which also includes holistic Evolutionary Theory from the Big Bang to the present), not what we observe in genetic variation which God has so graciously and so marvelously created. [NB: The *fallacy of extrapolation* is committed all the time by evolutionary proponents in relationship to this. They often cite change within a created kind but then go on to falsely apply the observation in a way that is in complete denial of observed and historical science - the using of the known (i.e., genetic variation) to apply to, in our case, a myth.] And by the way, never forget the wisdom offered by a European, non-Creation scientist in his book, *Darwinism, The Refutation of a Myth*: "I believe that one day the Darwinian **myth** will be ranked the greatest deceit in the history of science." Soren Lovtrup in *Darwinism: The Refutation of a Myth*; Croomhelm, New York, 1987, pg. 422 [emphases mine]." It's not only the Word of God that has labeled this lie a myth!

Do you have a few minutes? [Click here](#) for a short video relating to this important topic. [Example #2](#) (Transcription & Translation video) Here's yet another helpful video along the lines of *fearfully and wonderfully made*: [Example #3](#)

But this is only one of many contemporary fables being embraced by present culture. There are other myths being taught and received today. Here's a short list, but one including teachings of great significance.

1. The lie that all religions are basically the same. There are many expressions of this offense to reason. Some are more direct than others. Two more subtle appeals include Baha'i and "Chrislam."
2. The rejection of biblical sexuality for that of many cheap and dangerous substitutes. (e.g., "sexual orientation" ; present culture's redefinition of marriage ; et al.) The *days of Lot* are here - Sodom and Gomorrah are clearly described in Genesis 19 and in the New Testament book of Jude - and just happen to be one of the signs Jesus Christ mentions will take place just prior to His glorious coming (see the 17<sup>th</sup> chapter of Luke).
3. False *revisionist-history* appeals (e.g. denials of the Holocaust; [Neo-Gnostic Christology](#): a demonic doctrine portraying the spirit of antichrist - actually believed by the majority of global population today). Wow, and yet the faith-based skeptics who reject the supernatural laugh at the very claim they are in worldview bondage to their lord, the devil. Once again, it's amazing how deception plays out but so very sad in that the consequences tied to this false teaching are of eternal duration. (If you are presently NOT a follower of Jesus Christ, now's the time to accept His gift which was so graciously

given during the days of His Incarnation almost 2,000 years ago. Write to us for more crucial information on this eternally significant matter at: [email@endmin.org](mailto:email@endmin.org).

4. There's one final fable worth mentioning, one we've just recently discovered in the setting of epistemic (related to knowledge) appeals: The secular academic community, while affirming "spirituality" is a viable theory of reality, denies practical outcomes of a supernatural worldview in practice. One recent example was a dogmatically issued restriction to truth pursuit (by a philosophy prof) in response to one of our students asking a "how do we know" question in his philosophy class. After securing the prof's affirmation that, yes, a supernatural view of life is a valid perspective, the prof then went on to demonstrate inconsistency when he then told the student (something like): "You cannot appeal to biblical information. This source is not acceptable in this [educational] context."

**RIGHT!**

Be discerning dear reader. The world is rejecting Truth for foolishness ... for myths which deny even basic, common sense appeals. And for those readers who are followers of Jesus Christ, rejoice dear Saints, for His Word is sure - forever settled in heaven. Like those who witnessed the fulfillments of biblical prophecies concerning His first coming (in the first Century, A.D.) so too are we witnessing signs affirming His soon return. Until this precious *blessed hope* unfolds, walk with Him by abiding in His glorious Counsel to us - guidance second to none found in His Word.

Even so, please, come quickly LORD Jesus!
